

# EPIC

The added value

N\_VANHATTUM 12 FEBRUARI 2018 23:02

## Why did you register for EPIC?

**I was not entirely sure to which direction to go with my Thesis, so EPIC seemed like a good idea to find inspiration**

**Interest in malware**

**Getting to know new people**

**To get experience of working in international environment**

**To create a useful project and meet new people and see new places doing it**

It looked to me as a new, nice possibility to prepare myself for the future life and work and to boost my career.

**To get to familiar with international working experience**

To collaborate more internationally

**To do bachelor thesis**

**International work and keep working on the honeyja**

**The topic seemed interesting to me and the fact that we have to work with people from different countries is really cool**

**Networking**

And getting to know what the future might bring.

**Keep working on honeypot, chance to do international collaboration**

**To get an international insight and approach for problem solving**

**To get more cultural experiences in Europe**

**Joining multi-cultural environments <3**

**The certificate as well**

**To visit Latvia**

**To do a project that will be useful and pragmatic not a project that will just be shelved.**

Also a collaboration with other students and professionals from different background.

To get more experiences in international work

**To try something new in terms of software development**

## **What do you expect to gain from EPIC?**

---

Experience working with different students, knowledge of emerging topics of research

Intercultural skills

Gaining international collaboration by implementing real projects.

A good project result

**Possibility to use algorithms in real life**

**Knowing other culture and culture of technical experiences. Team working with strangers**

**A larger network**

**I expect to gain experience on the topic i'm assigned. On top of that i hope that i'll learn to work in a decentralized group.**

**A better project, with dif inputs**

**Input from different education and a more international prescriptive on my project.**

**Connections**

That will be of use in the future.

Build a better international network

**Experience**

I'm interested in the security field. I'd like to try myself there and find out whether I'm going to stay in security in my career.

**International experience**

Intercultural skills  
Good project result.

## **What is a challenge for you EPIC?**

---

**Collaboration and mutual understanding between participants and company representatives.**

**Distant collaboration**

Project planning, virtual collaboration

**Working together efficiently online**

**Cold**

**The online Collaboration**

**Collaborate over the internet**

The lack of face to face communication

**Working with Daniel**

**Language barriers, some people don't speak fluent english.**

The other thing is experience differences as well as expectation differences.

walking..

**Collaboration between different cultures,  
Project types and project times.**

**Collaboration over distance**

How the collaboration is going to work after being here.

**time constraints .... to come up with a  
concert output**

To work remotely with people who are in one place. Dividing my time to that many things I'm doing. Dealing with so much new things and knowledge.

**All effort is waste**

My major fear is if my
